Welcome to Harvey Road School,

The core focus of governors at Harvey Road School (HRS) is ensuring we continually provide a safe, happy, and engaging environment for our children to learn and grow, with a focus on providing children with the best possible education to aid their future success. To achieve this, we work with the senior leadership team to maintain and further develop the strategic vision for HRS.

To help governors in making these strategic decisions, we attend regular meetings, conduct school visits (to speak to staff and pupils), and take on specific governor roles providing oversight on critical areas of the school development plan and other projects. For 2020, governors are working closely with the wellbeing and mental health initiative at HRS, as well as the Explorers project. These roles are in addition to the regular ones that governors undertake, such as safeguarding, the curriculum, and special educational needs and disability (SEND).

To ensure we provide the best possible governance at HRS, the governing body comprises of staff members, parents, and members of the wider community, with a variety of skills and professional backgrounds, that offer HRS broad and comprehensive strategic leadership. The governing body is united by its unwavering commitment to provide each of our children with an outstanding, individually tailored, primary education that reflects our school ethos - be happy, show respect, seek success.

We're incredibly proud of the continuing hard work of both our staff and pupils, hard work that's reflected by the ongoing academic and operational success of the school we've enjoyed over several years now. Despite this success, the governing body continues to evaluate and address our strengths and weaknesses, remaining unashamedly ambitious in our expectations for HRS children in all aspects of their development.

Warm regards,

Tom Farrar
